UNION MADE

# the 2010 ufcw canada youth internship program

## *A unique training course by young members for young members.*

UFCW Canada's national *Youth Internship Program*, or *YIP*, has become the backbone of youth involvement in our union since its introduction in 2000.

More than 40% of UFCW Canada members are under the age of 30, and we are committed at the national level to providing young activists with new skill sets and hands-on experience that is invaluable to both the union and the participants.

In 2010, we will run four week-long regional YIP sessions across the country for as many as 48 to 60 young members, with participants returning the following year for hands-on activist training.

Many past participants in YIP training have become better activists in their local unions and their communities, union stewards, full-time union representatives, and local union officers.

By providing early training to young members we are making UFCW Canada a stronger and more inclusive activist union.

In solidarity,  
Wayne Hanley  
National President
